

Love letter

I wish all those days
Would last forever
Keep me in this craze
And make me clever.

You will be there with me
standing with you again
spread your wings and fly free
showing the path through pain.

I will come through
Loving you

We were so in love
life never seemed bad
then came the hard shove
leaving us both sad

We knew what was coming
as the misery spread
everything that's shining
hides the end, that is dead.

My words are true
I love you
